

Project Name:	<b>DPW – Fuel Tank Replacement</b>
Project Type:	Building
Department:	Public Works
Project Priority:	Moderate
Project Start Date:	2019
Project End Date:	2019

**Project Description:**

The project calls for the removal of the underground fuel tanks at the DPW fueling depot and their replacement with above-ground tanks.

**Estimated Project Costs:**

Legal/Survey/Due Diligence	\$0
Site Acquisition	\$0
Engineering/Design	\$20,000
Construction	\$165,000
Construction Inspect./Other	\$0
<b>Total</b>	<b>\$185,000</b>

**Project Priority Considerations:**

- Deteriorated Facility
- Public Safety/Legal Mandate
- Systematic Replacement/Operational Efficiency
- Resource Conservation/Environmental Quality
- New/Expanded Facility or Program
- Consistency with Formal Plans or Policy
- Funding Availability

**Sources of Funding:**

	2015	2016	2017	2018	2019+	Total
General Revenues	\$0	\$0	\$0	\$0	\$185,000	\$185,000

**Project Need/Issues:**

Remove the underground gas and diesel tanks and replace them with above-ground tanks. The present fuel depot at Disbrow Park has two 4,000-gallon underground tanks. These tanks must be tested annually for leaks and, if leaks are detected, repairs are difficult and expensive.

**Operating Cost Considerations:**

If the tanks develop leaks, the City could incur considerable expense in cleanup costs and potential fines. The tanks were last repaired in 2004 and are manually inspected and tested.
